Accommodation

The guests of our autotours are housed in a family bed and breakfast that has both the charm of the old (19th century caussenarde barn) and modern comfort. Completely restored with noble materials, collected on the site, the building does not lack charm. Located 10 minutes from Rodez in a quiet and tranquil setting your hosts will do everything to facilitate your stay.

The B&B is centrally located at the geographical level. Indeed, it will allow you to influence the department. The Aubrac and its plateau are at 1 hour, the Causses and Cévennes (registered with UNESCO) also, Albi is at 1h15, Conques at 45 minutes.

Each room has its own decor linked to one of the family members. You will have at your disposal towels, sheets, Wifi, toilet and bathroom.

Our road book will give you the indications to make the maximum experience during your stay: crafts, sport, gastronomy, tourist discoveries etc.

The accommodation is located in a hamlet surrounded by marked hiking and mountain biking trails. Easily accessible from the building, these routes will lead you to discover the small local heritage: fortified churches, dolmens, etc.

10 minutes from Rodez, you will have the opportunity to eat each evening in one of the restaurants of the city. In addition, you will also have the opportunity to discover the Soulages Museum, the Cathedral and the...

Vans

The vehicles we rent during our car tours are Renault Traffic 9 seats. They have either automatic boxes (on request) or manual boxes. They all have air conditioning, radio (with USB and bluetooth).

These are all extended models that allow the storage of suitcases for a week stay for 9 people.

The bike doors on the roof are designed to fit 12 bikes (disc or drum). Fixing is very simple and very fast. We can explain the fixation when you arrive at the airport on the first day.

In addition, they are manoeuvrable vehicles, which will allow you to criss-cross the many departmental roads that comprise the department of Aveyron. It is an undeniable plus to discover the secrets of the «small heritage» from Aveyron and away from the busy tourist routes or arrive on a wild bike route.
